

```
1 | AB
2 | printf("\n%%d\n", x);
3 |     101
   |     8787887
   |     00000101
   |     08787887
4 |     87.872200
   |     87.87
   |     87.9
   |     88
   |     88
5 | %0*llu    printf(%*d, num, a). -> * replace num.
6 | '\a' 不會顯示字元 會有逼聲
```
